

BENI MAHAT

Boulder, CO 80304 · beni.mahat@gmail.com · 720.226.6565 ·

OBJECTIVE

To obtain a position in as a Full Stacks Developer

EDUCATION

Boulder High School (2013)

University of Denver Coding Bootcamp

Expected (Dec 2020)

TECHNICAL SKILLS

HTML, JavaScript, AutoCAD · Microsoft Office

Circuit Analysis · Arduino Programing

Communication · Public Speaking

RELAVENT EXPERIENCES

Events Coordinator of Nepalese Student Association (2017-2018)

- Coordinated two large, successful cultural events which required leading different teams and ensuring they work cohesively, and ensure deadlines are met as well as readjusting when necessary.
- Having hosted for multiple programs, I can promote engagement from large groups and well as managing a timetable throughout an event.

PROJECTS

Boulder Disability Services (2019)

Sensory Stimulating Learning Vest

- Acted as lead for designing the physical body of both a vest and box which was required to be aesthetically pleasing as well as being sturdy and weather-proof.
- Vest and box required CAD modeling, 3D printing and fabrication.
- Developed broader understanding of Arduinos and circuits as well as learning how to integrate and print them on a PCB.

Full Stacks Web Development (2020)

Meal-Matcher

- Powered by Bootstrap and jQuery to build a minimalistic user-friendly Interface
- Using Ajax to call from a Food recipe API to allow user to efficiently search through an extensive database and save information for future refrence.
